**CIRCULAR LETTER**  
**No: 85 from 13 February 2017**

**To: Ship-owners/Operators, Company Security Officers, Legal Representatives of Moldavian Flagged Vessels, and Recognized Organizations (ROs).**

**Subject: Detentions in European and North Atlantic region (Paris MoU)**

The purpose of this communication is to formally inform all parties that any vessel which is twice detained by any member state of the Paris MOU from the date of the present notice until the end of 2017, will be subject to an immediate cancellation of the registry and the navigation documents, such as statutory certificates, registrations and/or radio station license.

We reiterate that the Mortgagee's interests are protected under national law - Republic of Moldova as this Maritime Administration is required to render previous notice of 30 working days to the Mortgagee. Within such period the Mortgagee will be entitled to enforce the Mortgage.

In cases where the Administration has proof that the surveyor who carried out the survey of the statutory certificates on behalf of the Republic of Moldova flag has direct responsibility or failed to detect a deficiency that was later detected by the PSCO during the survey, the Administration will revoke the surveyor's authorization to carry out surveys or issue certificates to any Moldavian vessel.

The Maritime Administration of the Republic of Moldova advice Ship Owners/Operators, Master, Legal Representative and Recognized Organizations to make sure that your vessels are in full compliance with all the International Conventions and national regulations.

These decisions are based on the multiple detentions of our fleet, which has been taking place at the Paris MOU, creating a disagreeable image to the Republic of Moldova registry.

**Harbour Master Giurgiuleshti**  
**Victor ANDRUȘCA**
